Re: WC Docket No. 01-92; WC Docket No. 07-135

Dear Ms. Dortch:

This is to inform you that on November 9, 2010, Walter McCormick, Jon Banks and the undersigned, representing USTelecom, met with Commissioner Robert McDowell and his Legal Advisor, Christine Kurth, in connection with the dockets identified above.

During this meeting, USTelecom urged the Commission to move forward with its proposed rulemakings on comprehensive reform of its inter-carrier compensation and universal service rules as expeditiously as possible. In particular, we advocated that the Commission address the issues of phantom traffic, traffic pumping and the appropriate treatment of VoIP traffic. USTelecom noted that the National Broadband Plan recommended that the Commission take interim action on each of these issues prior to implementing comprehensive reform because they are critical to providing the industry with revenue stability and predictability.

Pursuant to Commission rules, please include a copy of this notice in the above-referenced dockets.

Sincerely,

Glenn Reynolds

c: Christine Kurth
